

Documentation Epicture

Emmanuel Blineau, Gabriel Danjon

October 2020

1 Using

When application started you'll need to connect yourself to your Imgur application. After that, you'll arrive on the main page of ImgurHub where you will have all of the day's hot pictures.

2 Home page

On the main page you can click on the pictures to look at them in a bigger screen and have the description. You can like the picture to have it in your favorite place. You can search and sort an picture by clicking on the buttons on the top right screen. The button ImgurHub on the top left screen make you come back to the home.

3 Upload

The upload (second button on the navigation bar on the bottom) allow you to upload pictures on Imgur by selecting from the gallery or the camera. Indications will be given if you do not fill all they required elements.

4 Favorite

The favorite page is a simple page for looking at your favorites pictures.

5 Profile

The profile page show you your current image from Imgur and show you your reputation and you type. You can also click on the picture button to see all of your pictures uploaded.
